Sir/Madam,

Sir/Madam,

We are proposing to hold a national seminar on **Caste, Community & Culture: Transition during the Colonial Period of Kerala**. It intends to identify and discuss the socio-political issues of contemporary history of our state. The topic aims at investigating the cultural background of caste formation and community development in the region. We hope it will help the teachers, researchers and the students to have better understanding of the present day society with its cultural complexities.

The academicians and activists will sit together to discuss the different phases of the theme. We hope that the papers related with the theme will trigger healthy discussions to empower our democracy which faces so many challenges from many different corners.
