QUEST 2019 : Science Exhibition

Principal's Report

Dr. Jayasree S.

It has been said that "A good teacher is like a candle- It consumes itself to light others". A teacher can ignite the minds of the youth only if he keeps the candle burning by updating his knowledge in tune with the changes around especially in the fields related to his own subject. In recognition of the importance of the pursuit of knowledge by the teachers, Government Arts and Science College, Kozhikode organizes a one month long academic activity titled "Spectrum" with the financial support of The Directorate of Collegiate Education, Kerala. in which various academic discourses like seminars, workshops, conferences and exhibitions provide opportunities for the teachers to familiarize with the latest developments in their subject fields. This time "Spectrum 2019" included six international / national seminars, three workshops and an exhibition.

"Spectrum 2019", which was formally inaugurated by Hon Speaker of Kerala Legislative Assembly, Sri. Sreeramakrishnan on 11-10-2019, was an overwhelming success with the vibrant participation of academicians and scholars from different parts of the country. All the programmes maintained high standard and attracted academic community all over Kerala. It was a great opportunity for the faculty and students to interact with eminent personalities in their respective subjects and also to update their knowledge

The highlight of "Spectrum 2019" was three day exhibition (Quest 2019) which was organized by Department of Zoology of our college as part of their golden jubilee celebrations. All the twelve departments in the college joined hands with the department of Zoology to make it a grand success. There were more than 50 stalls and more than 10000 visitors including students and common public.

I hope the proceedings of the seminar series would prove to be a challenging contribution to the scholars and students across the country.
